Empleyado Inc.
Ortigas, Pasig City

Subject: Application for Software Developer Intern

Dear Hiring Manager,

I am writing to express my interest in the Software Developer Intern position at Empleyado Inc., which I found on Indeed. As a third-year Bachelor of Science in Computer Science student at Ateneo de Naga University, I am eager to apply my programming skills in a professional environment. I believe this internship will help me strengthen my technical skills while giving me the opportunity to contribute to real-world software projects.

Through my coursework and personal projects, I have built a strong foundation in C++ and Python programming. My projects include an ATM Management System, enhancements to an object-oriented Pac-Man game, and a personal Asteroids game developed using SFML. I have also earned Cisco Networking Academy certifications in Python, C++, Cybersecurity, Linux, and Computer Hardware, reflecting my commitment to continuous learning.

I would welcome the opportunity to discuss how my skills and enthusiasm for software development can contribute to your team. My resume is available through my digital portfolio for your review. I may be reached at cfdepadua@gbox.adnu.edu.ph or 0915 715 2760. Thank you for your time and consideration, and I look forward to the opportunity to speak with you.

Sincerely yours,

Carl Francis B. De Padua
